

## SCVS Post-Meeting Feedback

### Respondents:

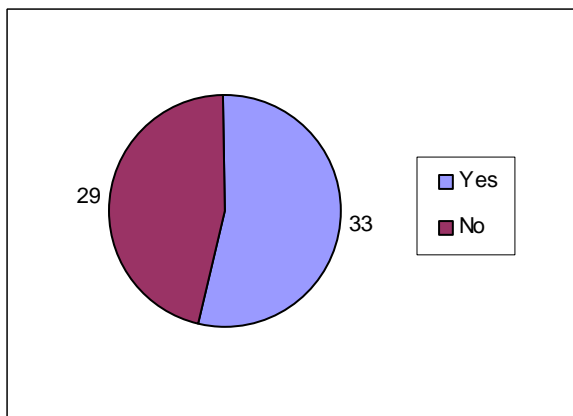

64 individuals filled out the survey

### Sessions

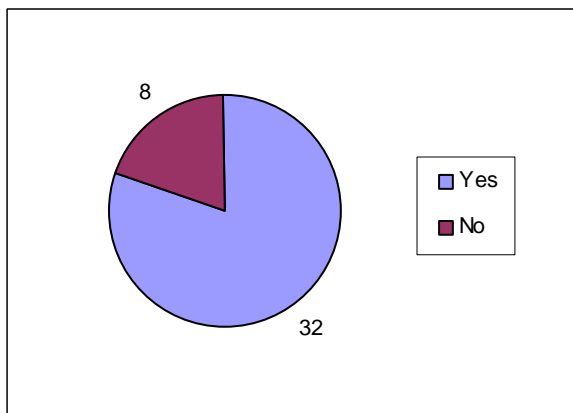

#### Wednesday

#### Postgraduate Course Carotid Stenting: Challenging Cases and Technical Tips

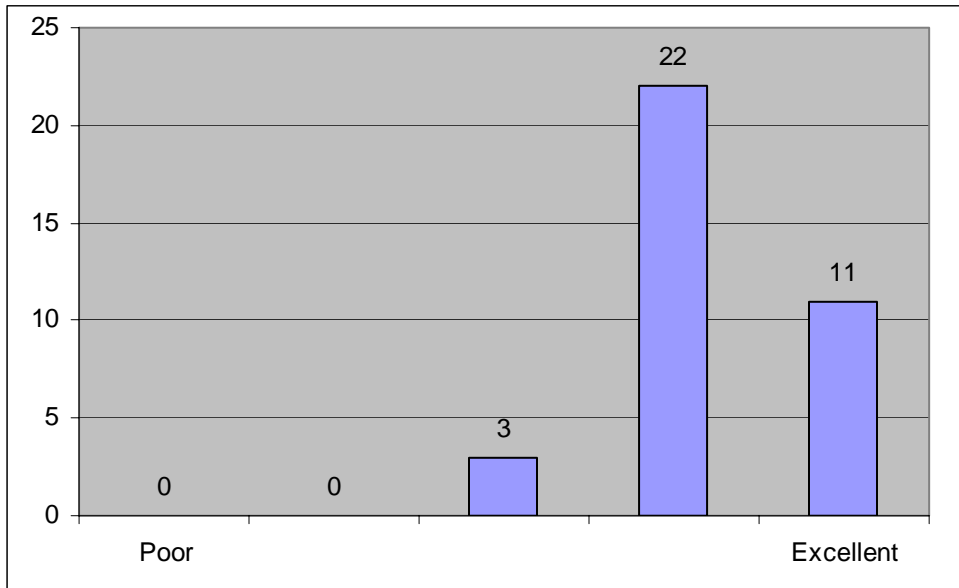

1. Did you attend this session?

2. Over the next 12 months, do you expect to apply specific knowledge skills/gained from this session?

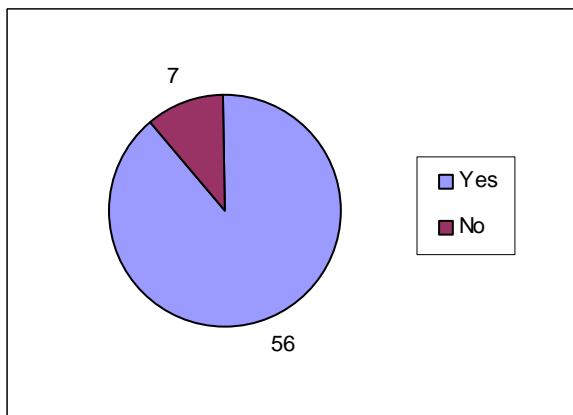

3. How would you rate the value of this session?

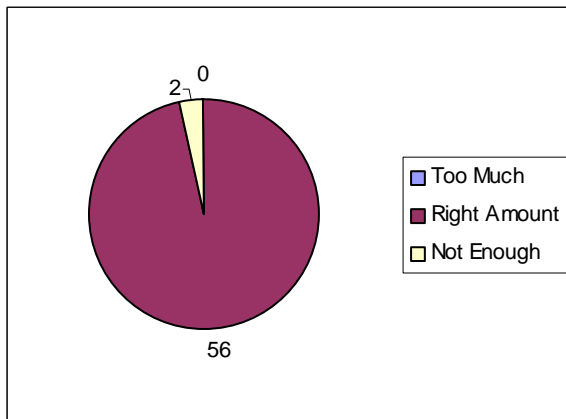

**Scientific Session 1: Abdominal Aortic Aneurysm Disease**

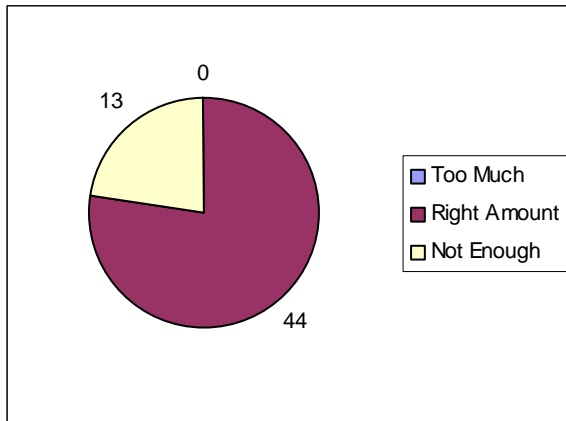

4. Did you attend this session?

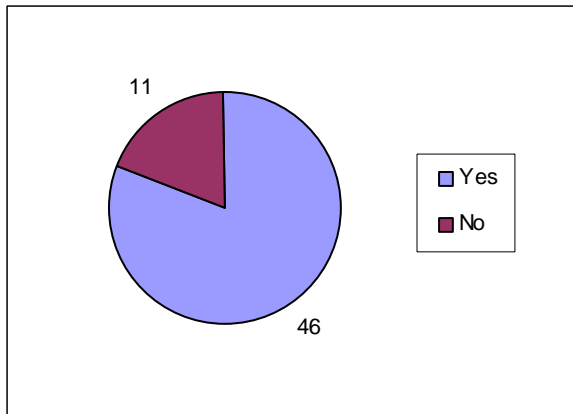

5. Number of Papers

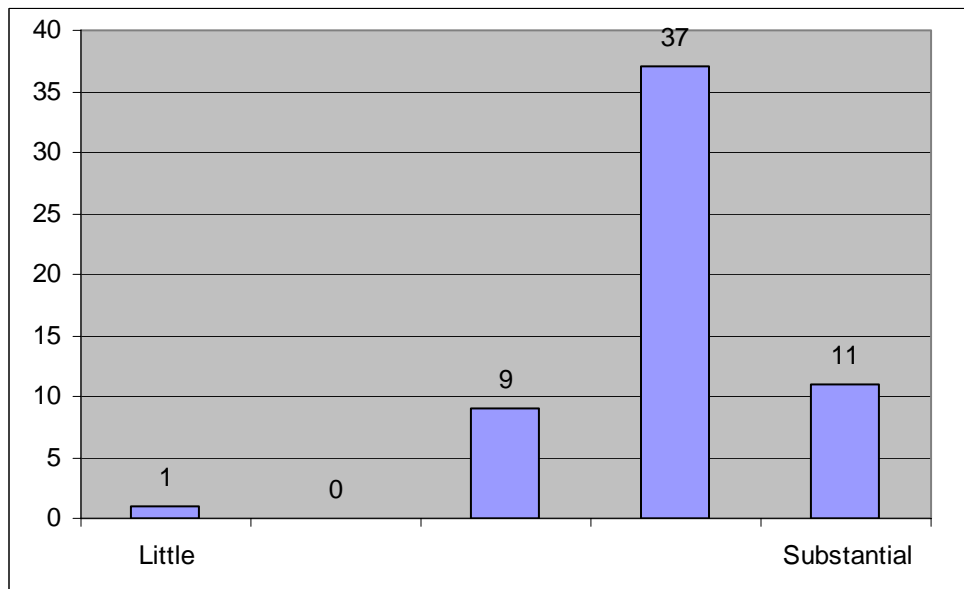

6. Discussion Time

7. Did this session include new data/procedures that will benefit you?

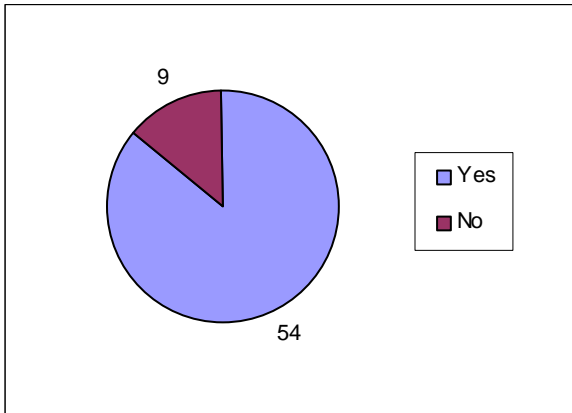

8. How would you rate the relevance of this material to your practice?

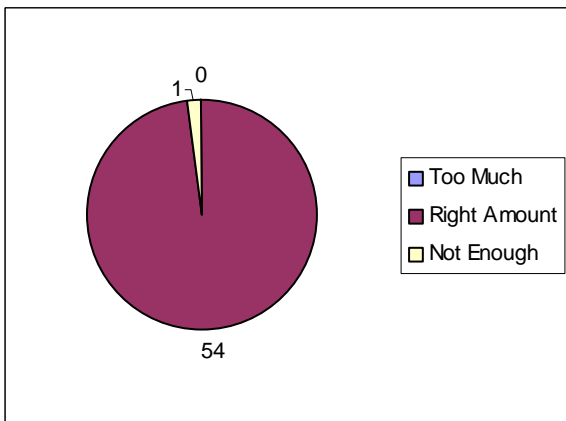

### Scientific Session 2: Cerebrovascular Disease

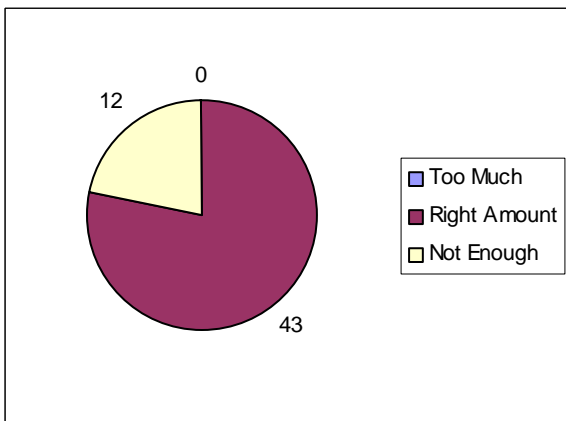

9. Did you attend this session?

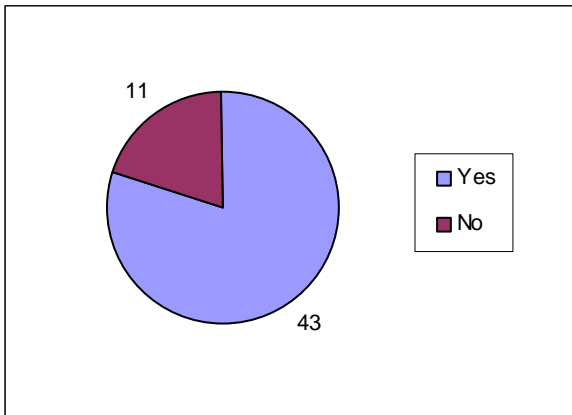

10. Number of Papers

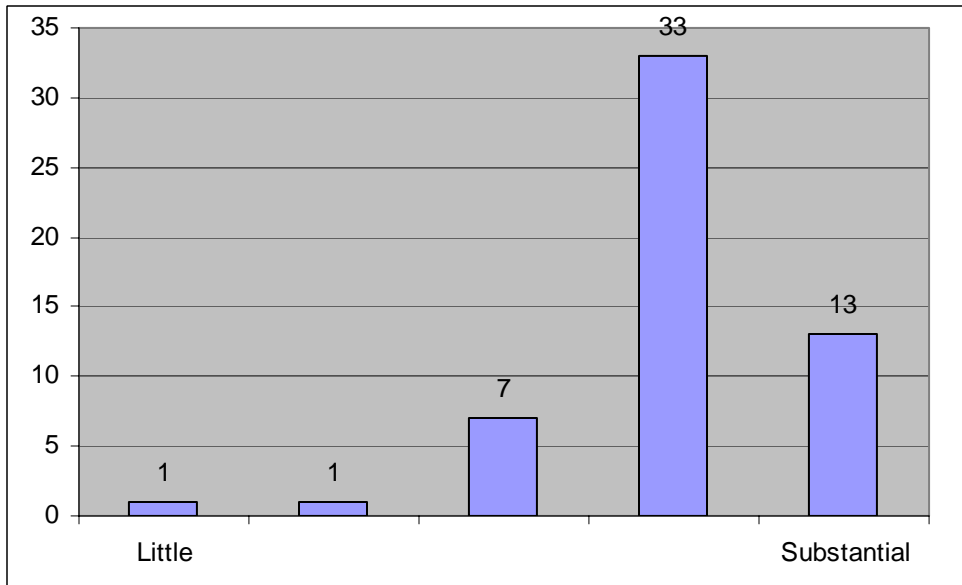

11. Discussion Time

12. Did this session include new data/procedures that will benefit you?

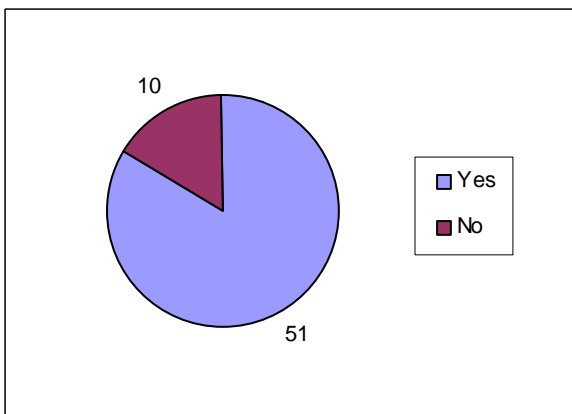

13. How would you rate the relevance of this material to your practice?

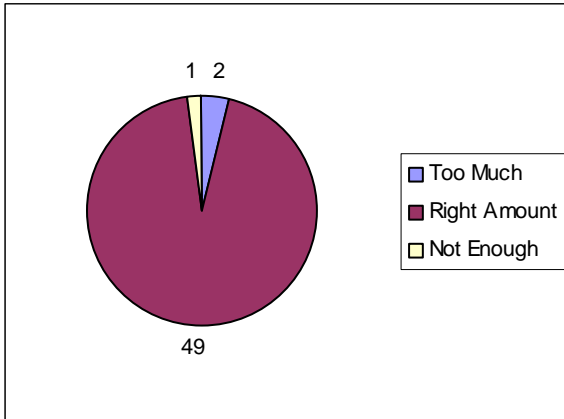

**Thursday**

**Scientific Session 3: Thoracic Vascular Disease**

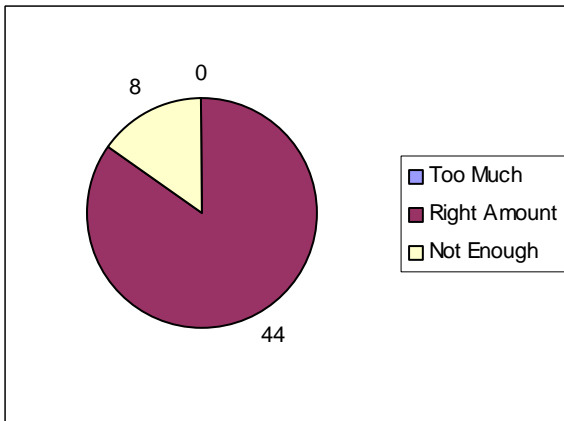

14. Did you attend this session?

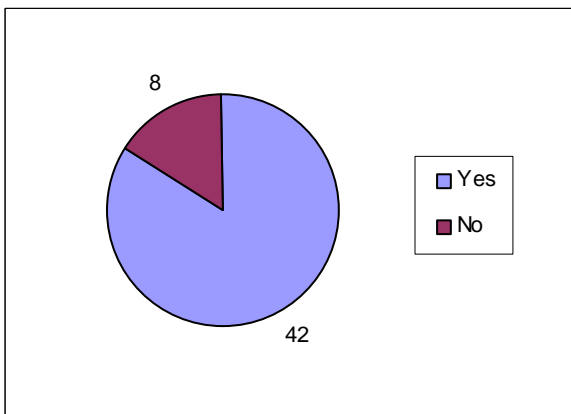

15. Number of Papers

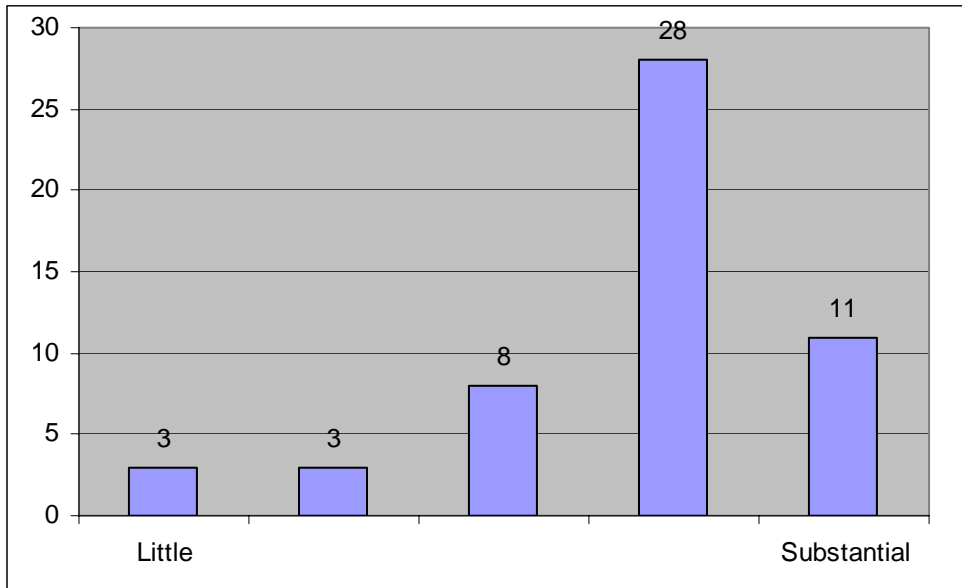

16. Discussion Time

17. Did this session include new data/procedures that will benefit you?

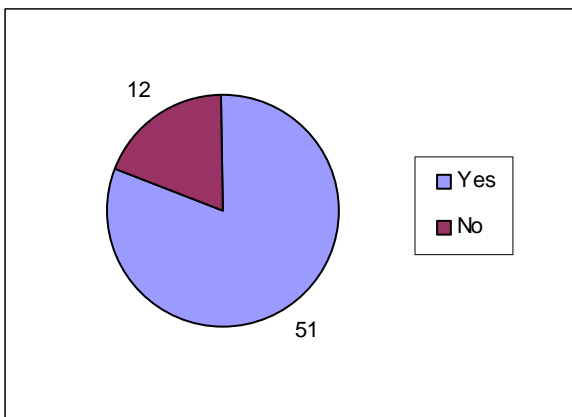

18. How would you rate the relevance of this material to your practice?

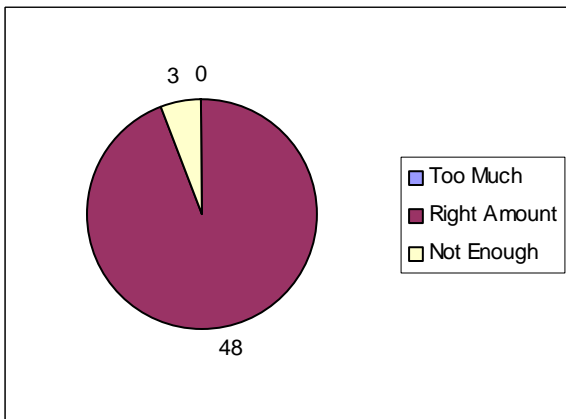

**Scientific Session 4: Visceral and Renal Artery Disease**

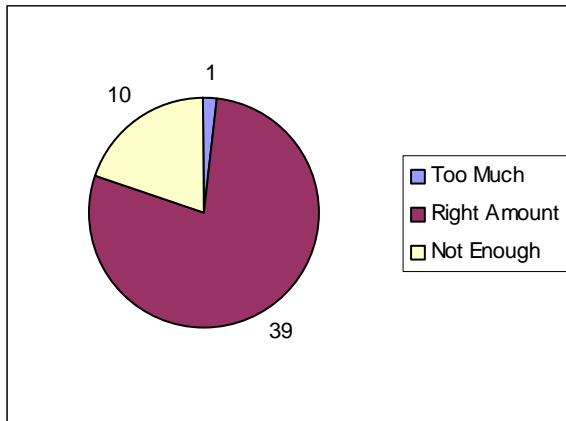

19. Did you attend this session?

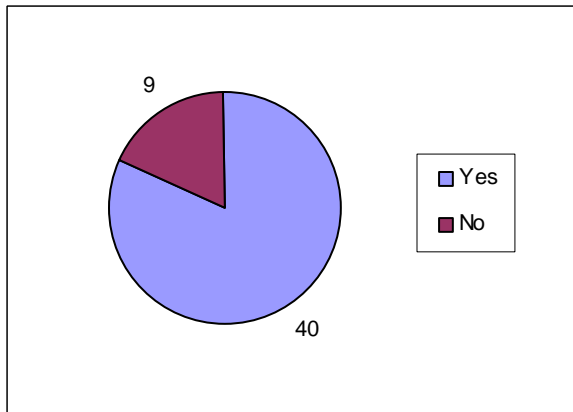

20. Number of Papers

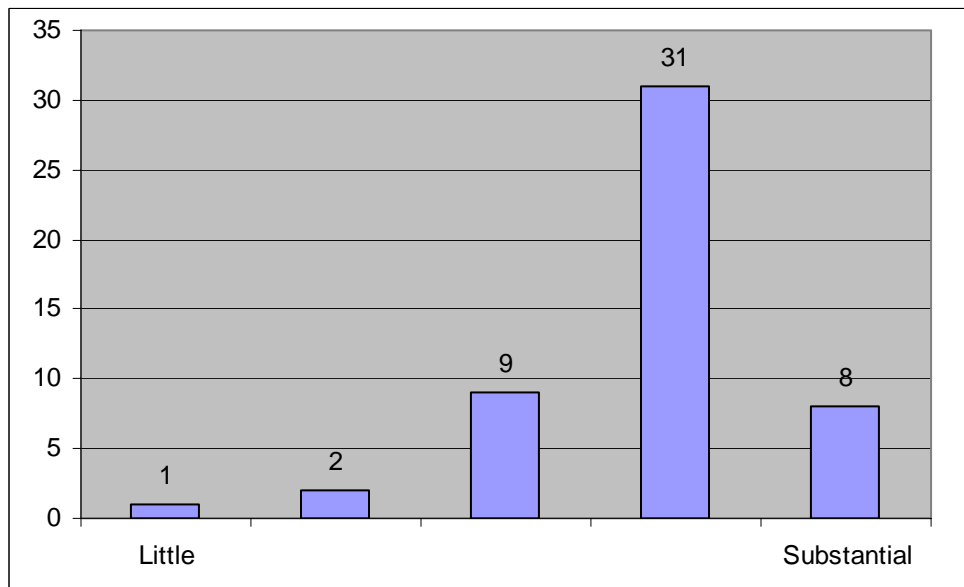

21. Discussion Time

22. Did this session include new data/procedures that will benefit you?

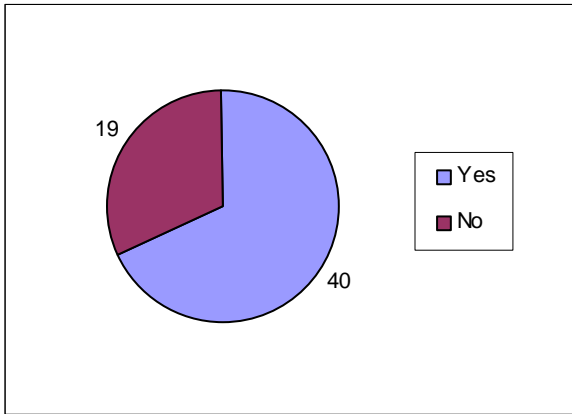

23. How would you rate the relevance of this material to your practice?

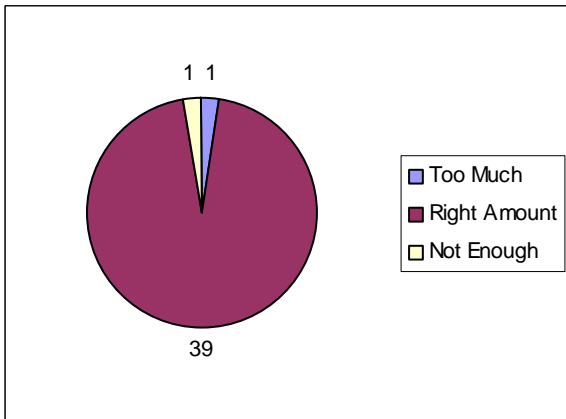

## Friday International Panel

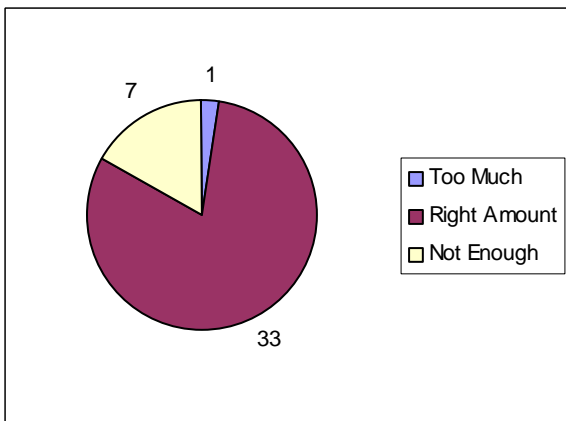

24. Did you attend this session?

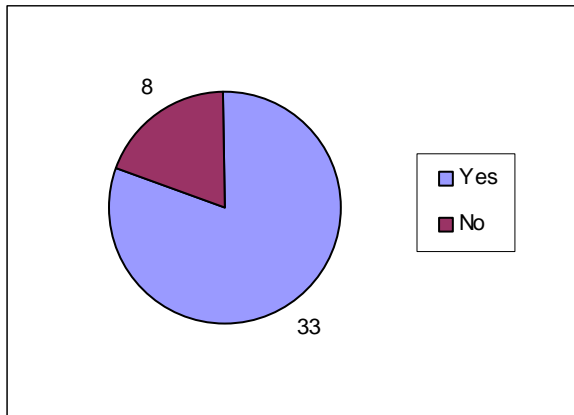

25. Number of Papers

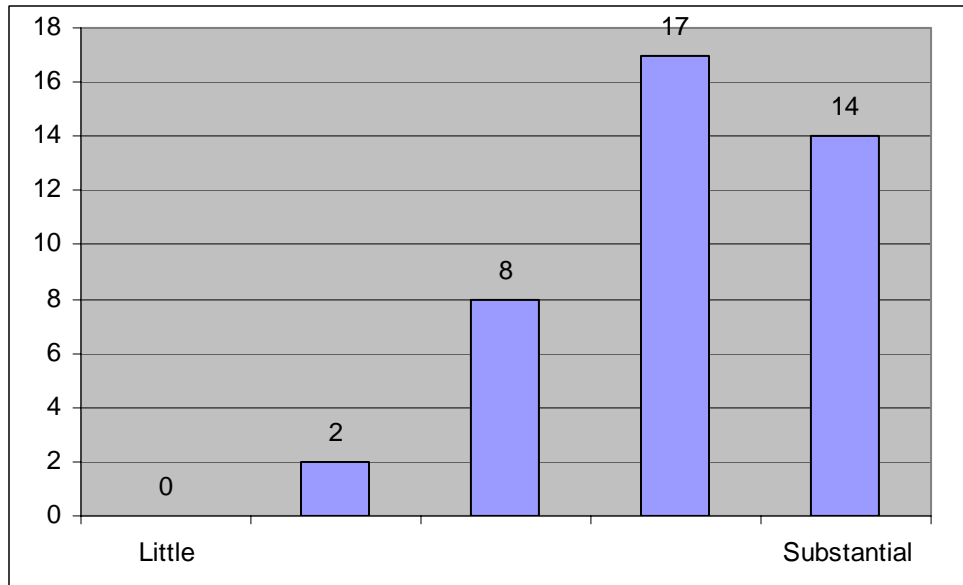

26. Discussion Time

27. Did this session include new data/procedures that will benefit you?

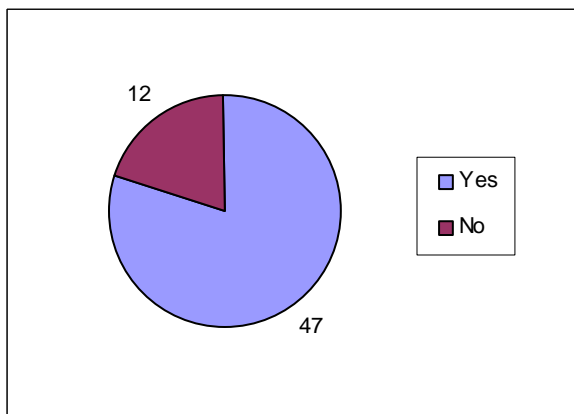

28. How would you rate the relevance of this material to your practice?

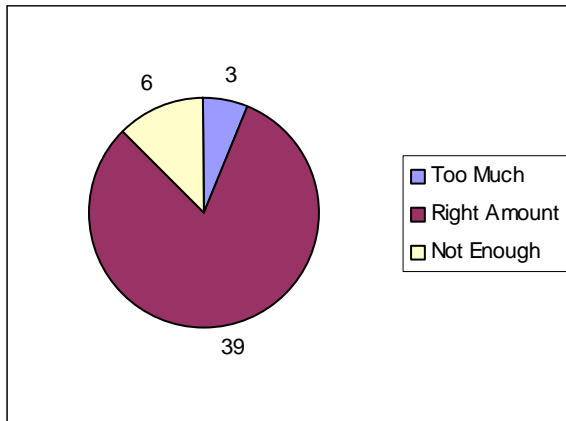

**Scientific Session 5: Venous Disease**

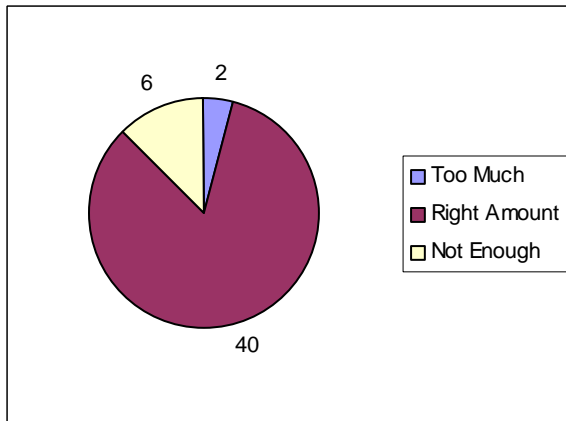

29. Did you attend this session?

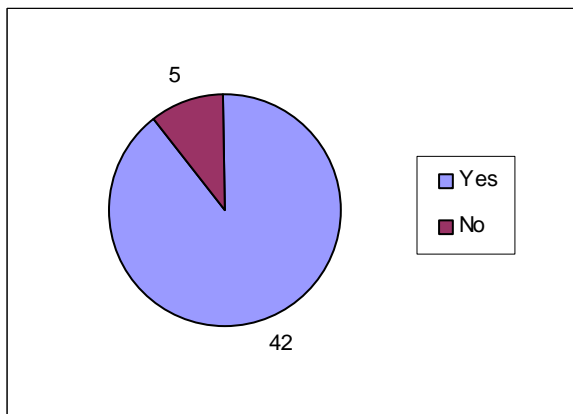

30. Number of Papers

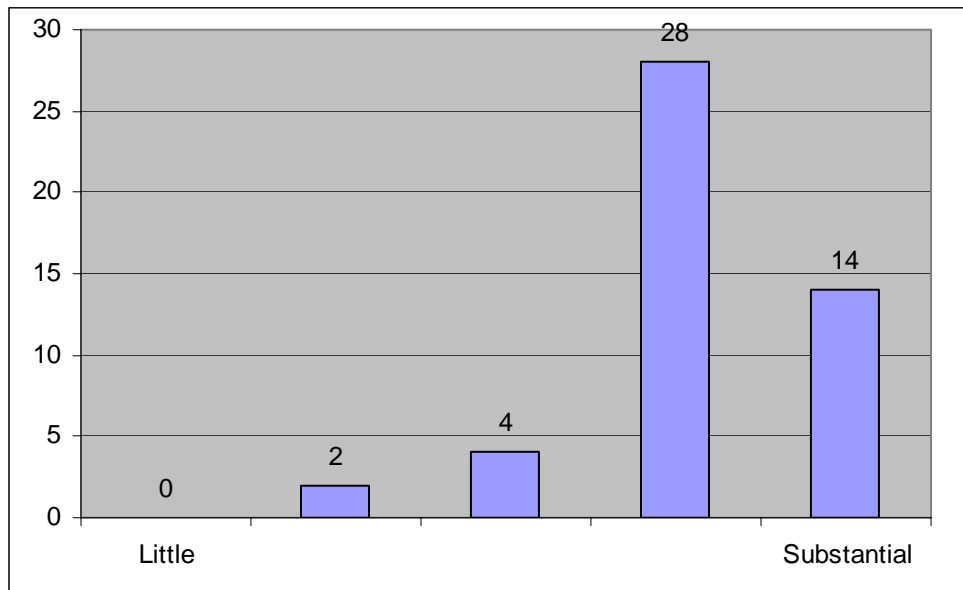

31. Discussion Time

32. Did this session include new data/procedures that will benefit you?

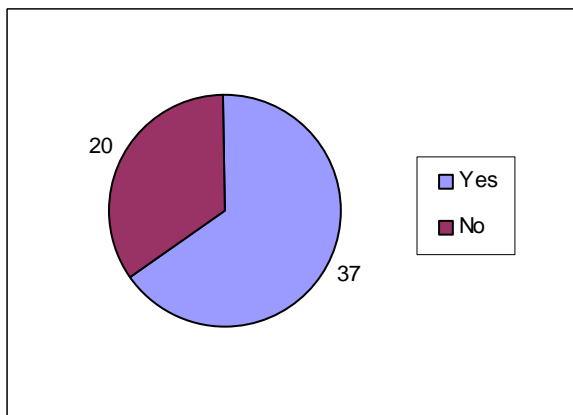

33. How would you rate the relevance of this material to your practice?

**Poster Competition Round 1**

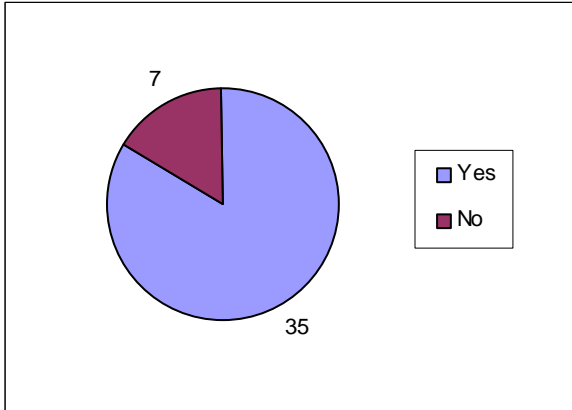

34. Did you attend this session?

35. Please rate the relevance of each poster group topic

	Little			Substantial	
<b>Aorta I</b>	0	2	7	7	4
<b>Aorta II</b>	1	0	8	6	6
<b>Carotid Disease</b>	0	3	6	8	3
<b>Endovascular</b>	0	1	7	9	3
<b>Innovative Techniques &amp; Technologies</b>	0	1	9	6	3
<b>Peripheral Vascular Disease</b>	0	0	7	10	6
<b>Other Vascular</b>	0	2	8	7	4

36. Do you expect to incorporate techniques and new information from the session into your practice in the next 12 months?

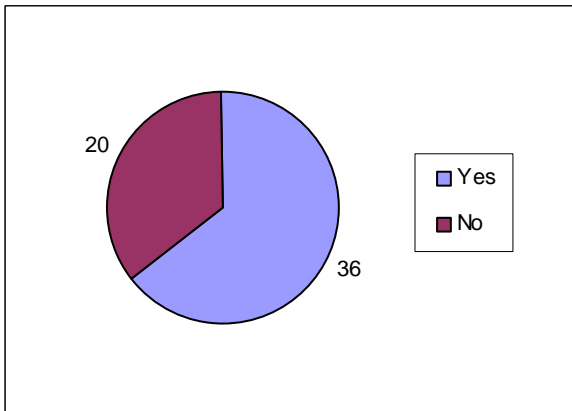

37. Please use this space to comment on the content and organization of the poster session

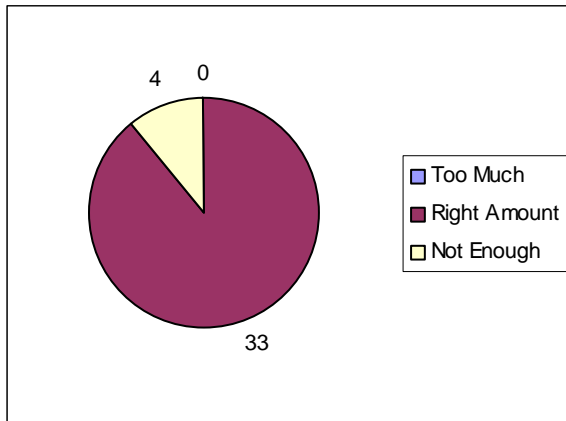

- Average in quality and content.
- Enjoy this session very much.
- Excellent
- Excellent format
- EXCELLENT way to conduct the poster session!!!!
- Good content. Too crowded during the talks
- I like it
- It was the highlight of the meeting, and fun
- More sessions in evening. One isn't enough
- New format is excellent, kept the agenda moving
- Nicely done
- Not enough space present here
- Poster set up was not organized at all.
- The prognostic implications of a positive blood cu
- Very good
- Well done better in evening next time
- Well run
- You could only hear presentations on 1/7 of the posters

**Scientific Session 6: Dialysis Access Issues**

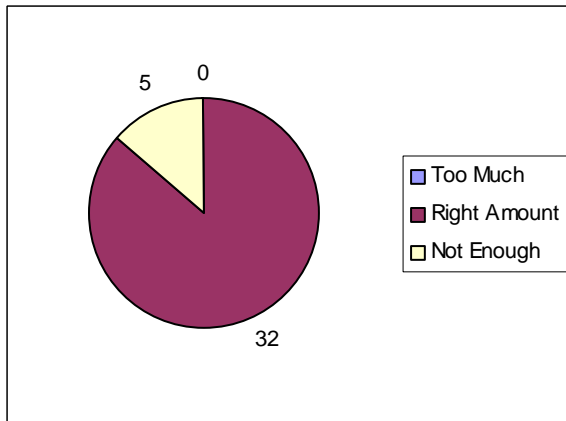

38. Did you attend this session?

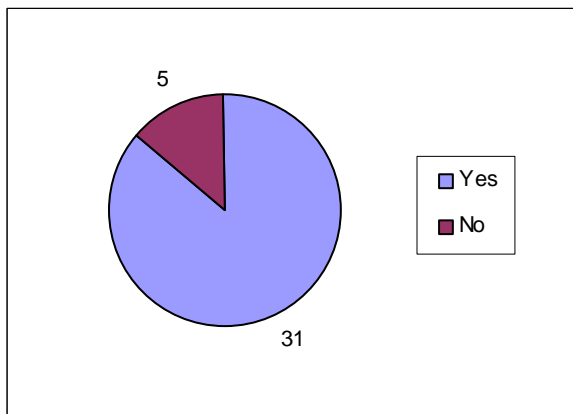

39. Number of Papers

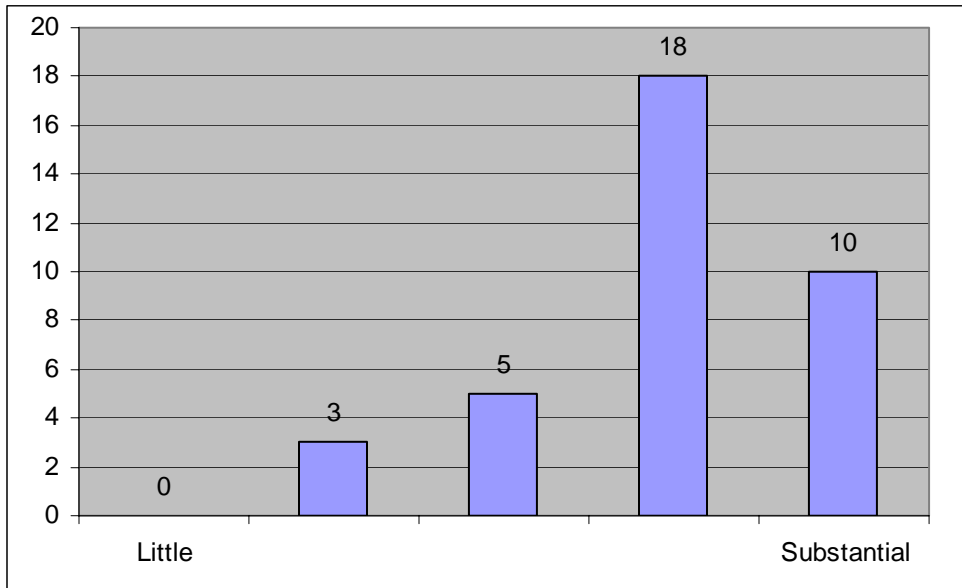

40. Discussion Time

41. Did this session include new data/procedures that will benefit you?

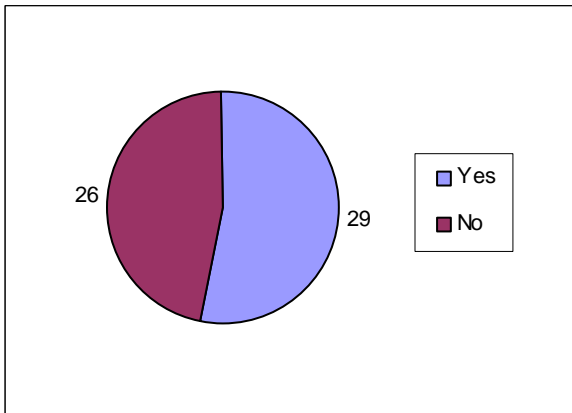

42. How would you rate the relevance of this material to your practice?

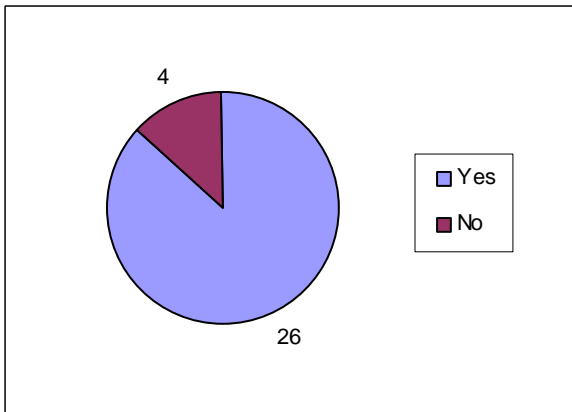

**Postgraduate Course Venous Office Practice: Why It Is Replacing Arterial Surgery**

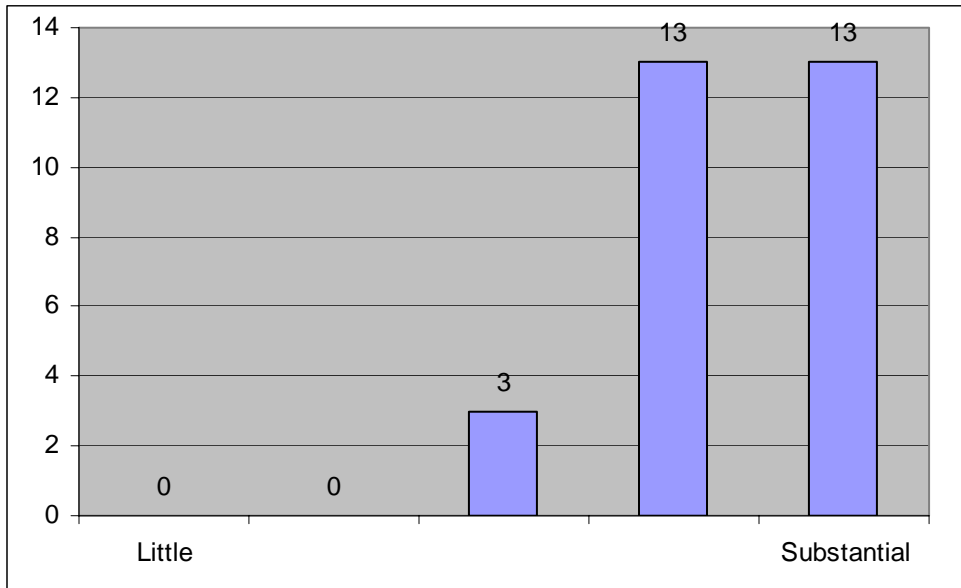

43. Did you attend this session?

44. Did this session include new data/procedures that will benefit you?

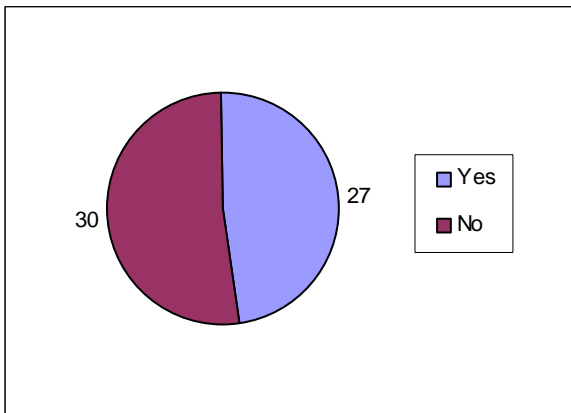

45. How would you rate the relevance of this material to your practice?

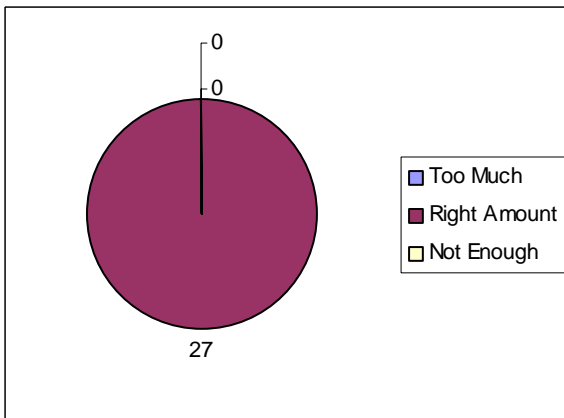

**Saturday**

**Scientific Session 7: Imaging in Vascular Disease**

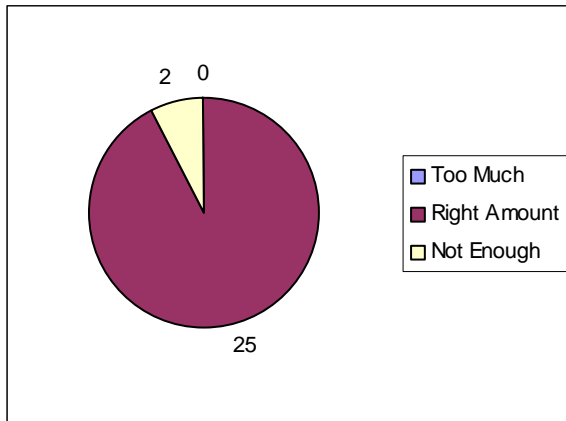

46. Did you attend this session?

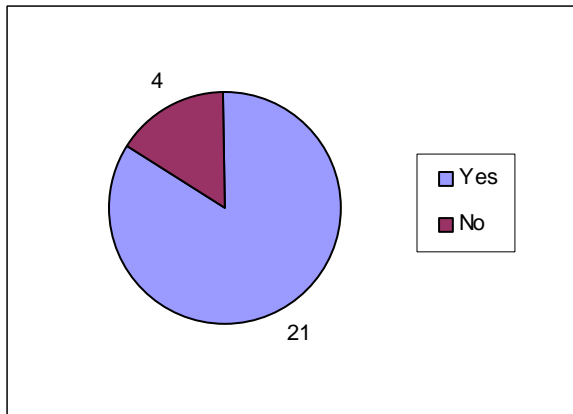

47. Number of Papers

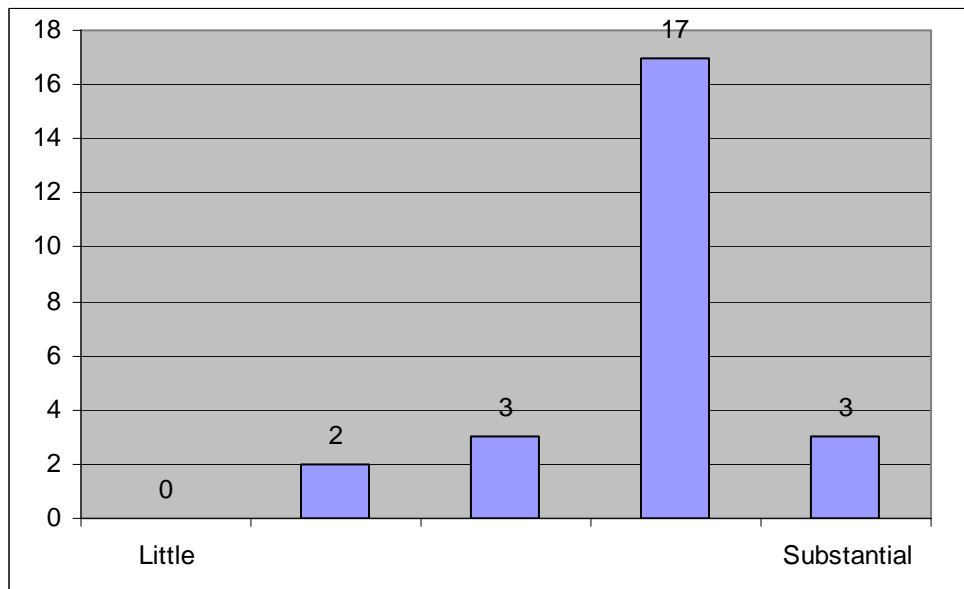

48. Discussion Time

49. Did this session include new data/procedures that will benefit you?

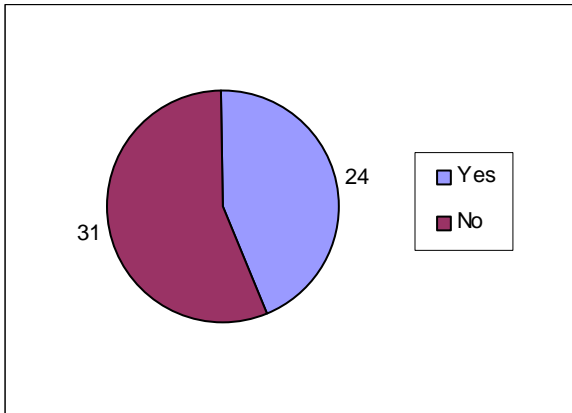

50. How would you rate the relevance of this material to your practice?

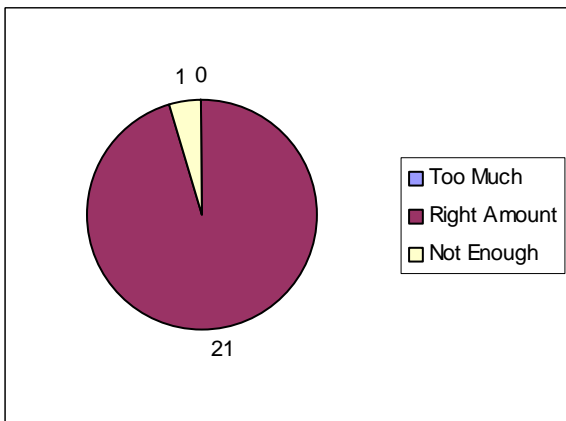

### Poster Competition Final Round

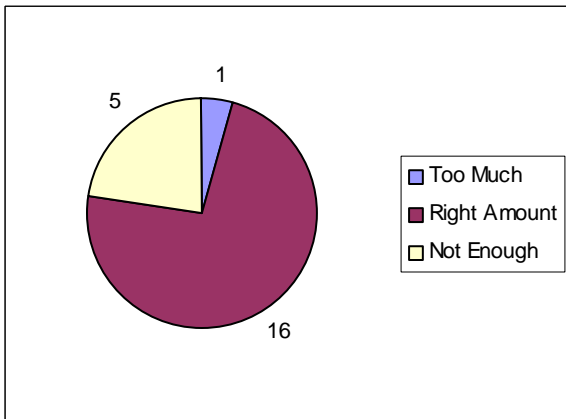

51. Did you attend this session?

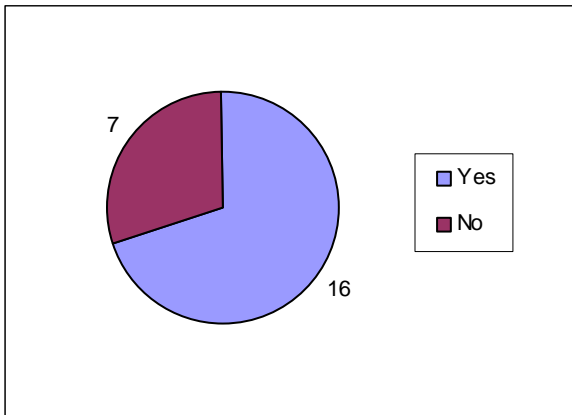

52. Number of Papers

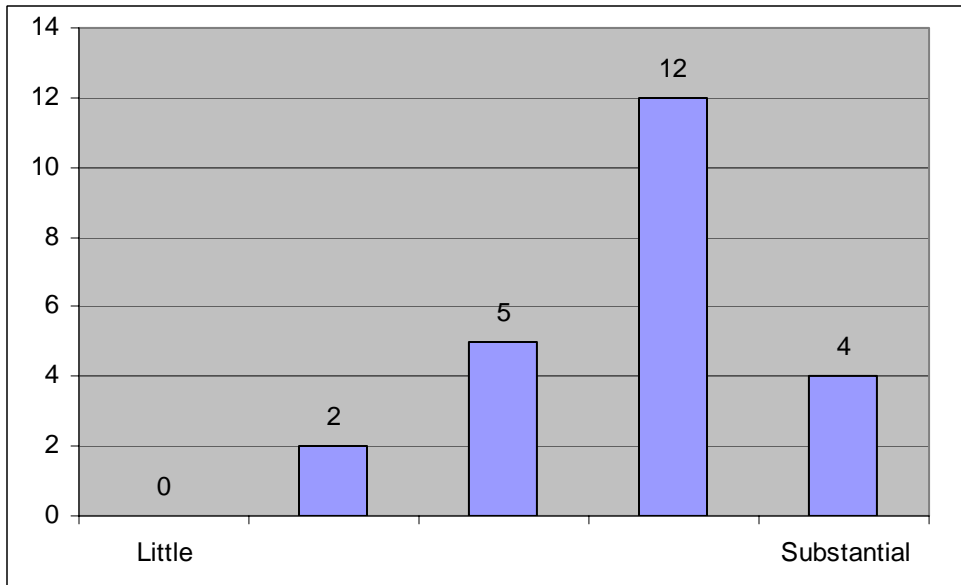

53. Discussion Time

54. Did this session include new data/procedures that will benefit you?

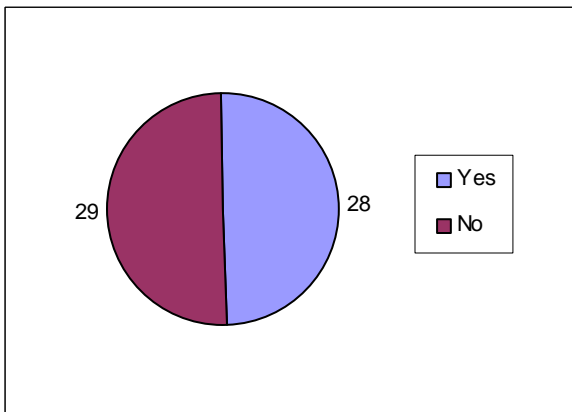

55. How would you rate the relevance of this material to your practice?

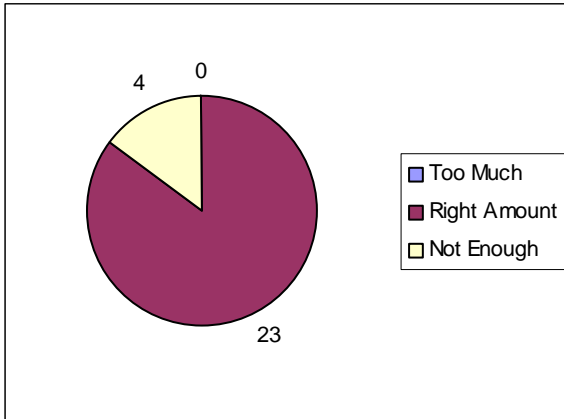

**Scientific Session 8: Peripheral Arterial Disease**

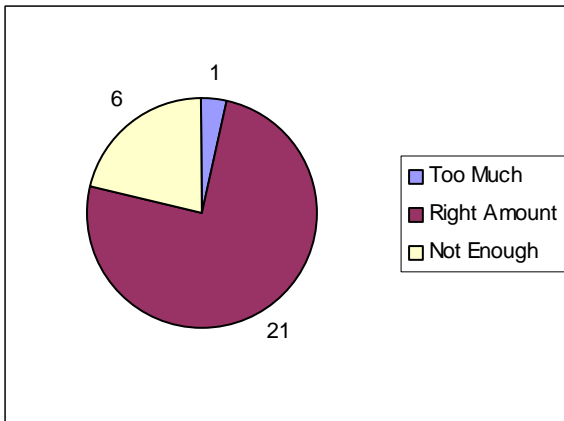

56. Did you attend this session?

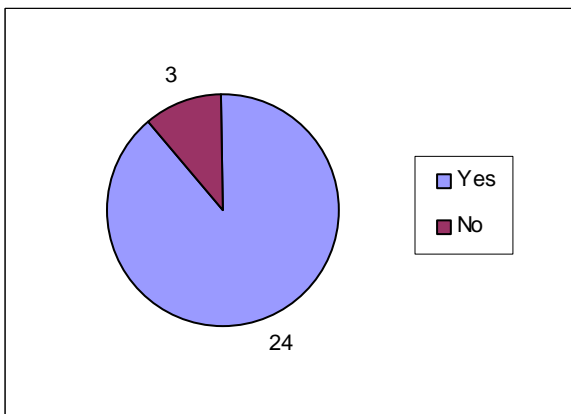

57. Number of Papers

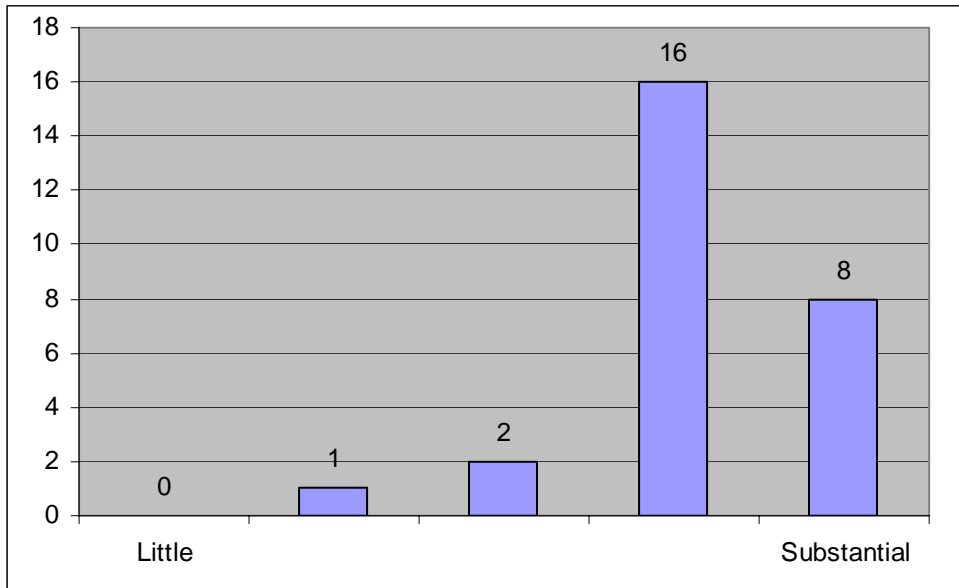

58. Discussion Time

59. Did this session include new data/procedures that will benefit you?

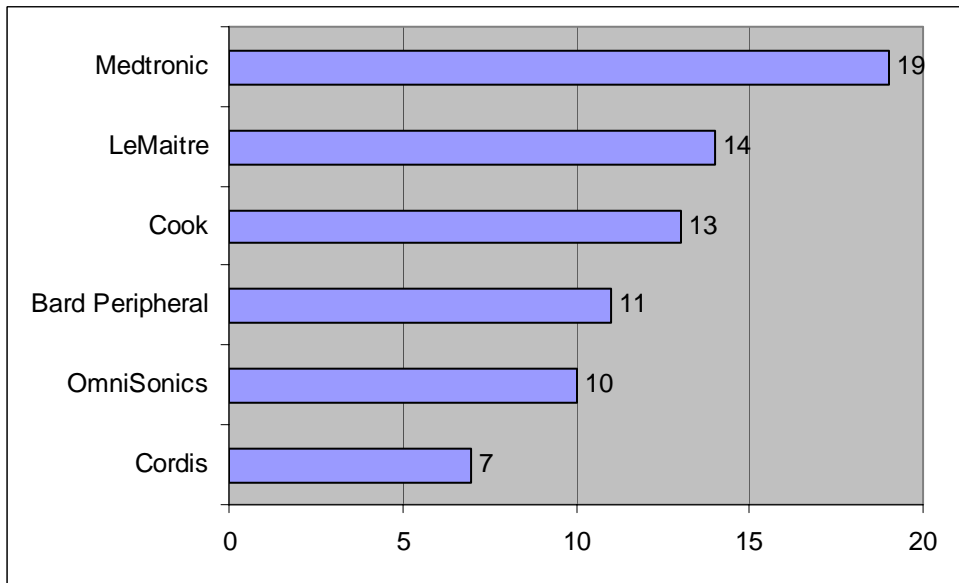

60. How would you rate the relevance of this material to your practice?

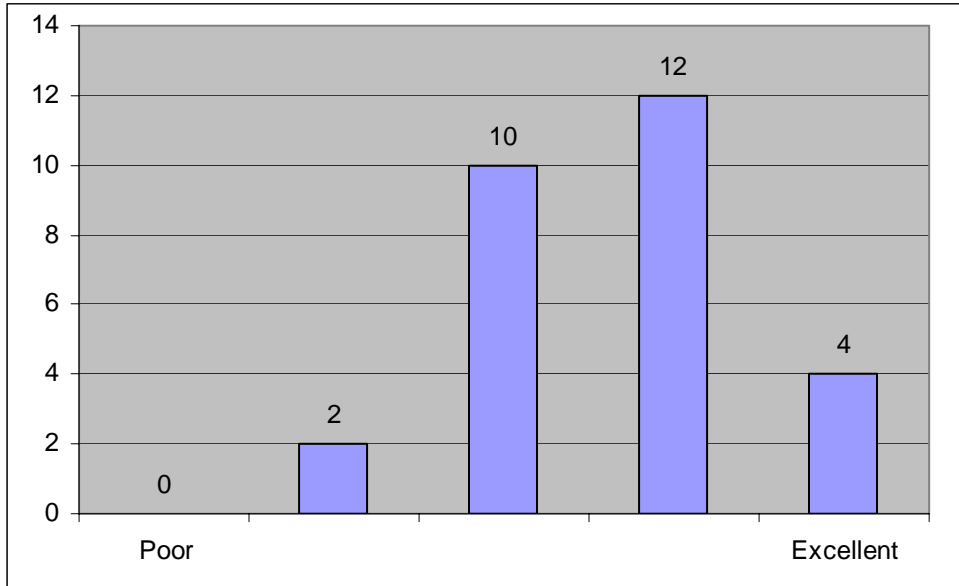

**Non-CME Sessions**  
**Hands-on Stations**

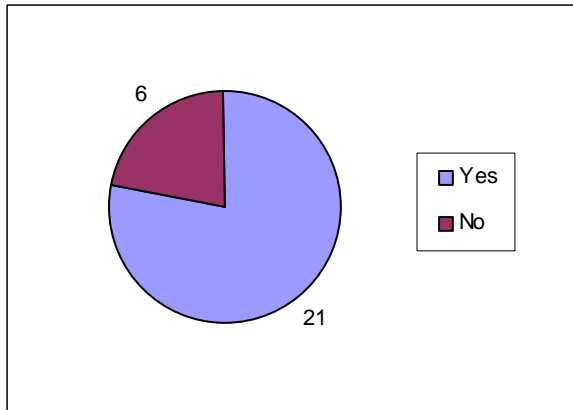

1. Check all Hands-on Stations you attended:

2. Please rate the overall quality of the Hands-on Station experience

3. Did this session include new data/procedures that will benefit you?

4. What techniques/procedures will you use in your practice in the next 12 months

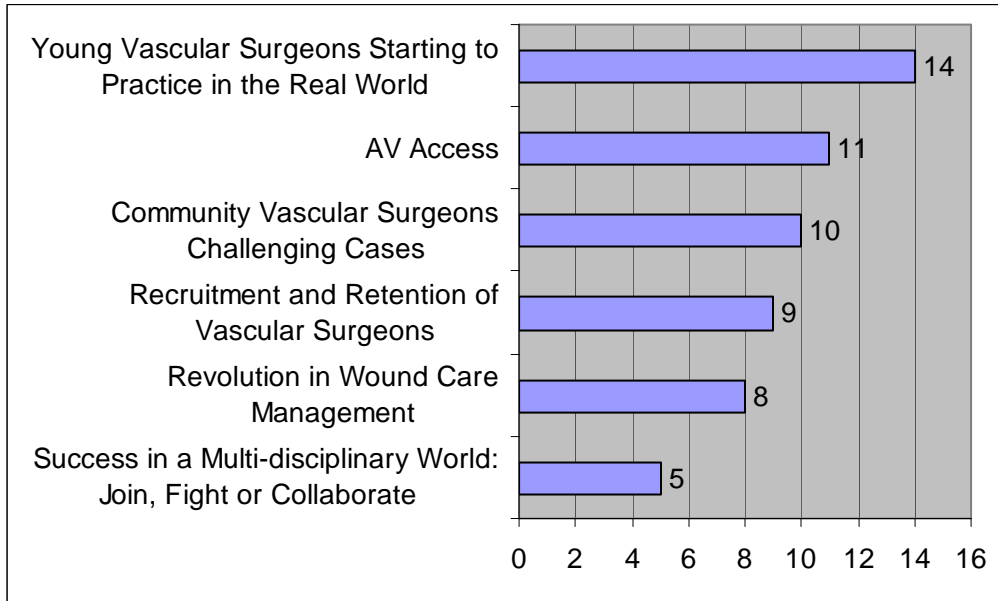

- All
- Cutting balloons in av access
- EVAR
- EVAR deployment
- Omnisonics Mechanical Thrombolysis
- Subintimal angioplasty, cryo, etc...
- VCS clips. Possibly OmniSonics device

5. Please use this space to comment on the value of specific hands-on stations:

- Good
- Hands on sessions should be hands on.
- I do these already on pts, so did not do any
- Last years were better
- Not great but Okay
- Very good

**Breakfast SIGs**

6. Check all Breakfast SIGs (special interest group) sessions you attended:

7. Please rate the overall quality and relevance of the Breakfast SIGs you attended:

	Little		Substantial		
<b>Young Vascular Surgeons Starting to Practice in the Real World</b>	0	0	1	9	3
<b>AV Access</b>	0	0	4	2	3
<b>Community Vascular Surgeons Challenging Cases</b>	0	1	0	4	4
<b>Recruitment and Retention of Vascular Surgeons</b>	1	0	3	3	1
<b>Revolution in Wound Care Management</b>	0	1	4	2	1
<b>Success in a Multi-disciplinary World: Join, Fight or Collaborate</b>	0	0	0	2	2

8. What techniques/procedures or strategies learned in the SIGs will you use in your practice in the next 12 months?

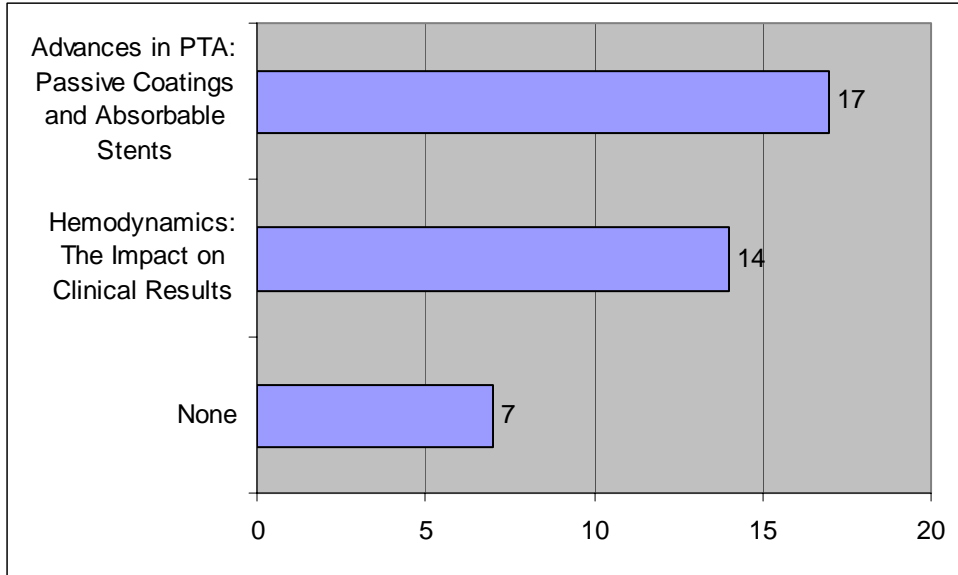

Carotid cases had good tips

9. Please use this space to comment on the value of specific Breakfast SIGs

- Excellent
- Fair
- Recruit/retention needs to be a MAIN session!
- Too early. Have them in afternoon or evening
- Very valuable

### Luncheon Symposia

10. Check the Luncheon Symposium you attended: (special interest group) sessions you attended:

11. Please rate the overall quality and relevance of the Luncheon Symposium you attended:

	Little			Substantial	
	0	1	2	3	4
<b>Hemodynamics: The Impact on Clinical Results</b>	0	1	1	7	7
<b>Advances in PTA: Passive Coatings and Absorbable Stents</b>	2	2	1	3	6

12. What techniques/procedures learned in the symposia will you use in your practice in the next 12 months?

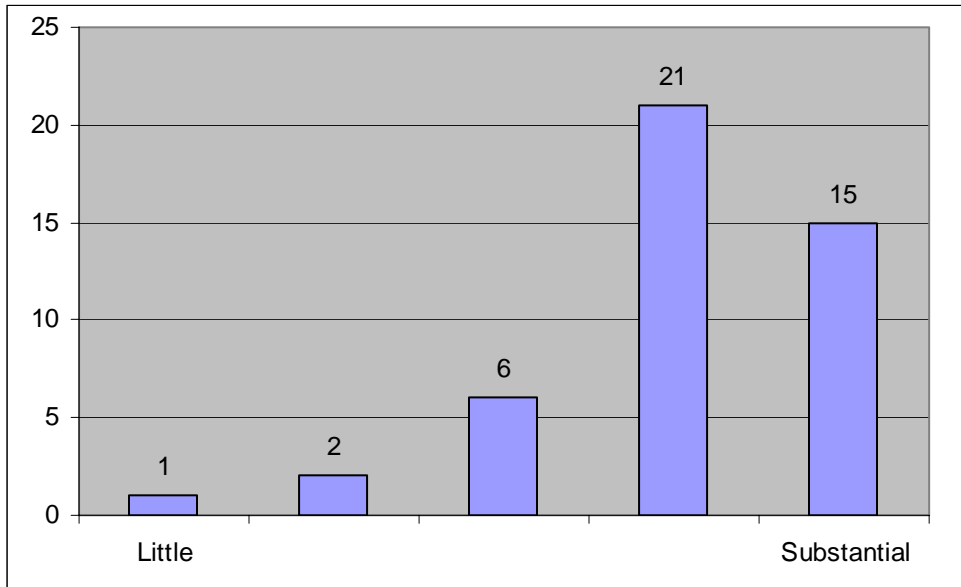

- Absorbable stents
- More aggressive PTA of tibials
- Not available yet
- Tibial angioplasty

13. Please use this space to comment on the value of specific Luncheon Symposia

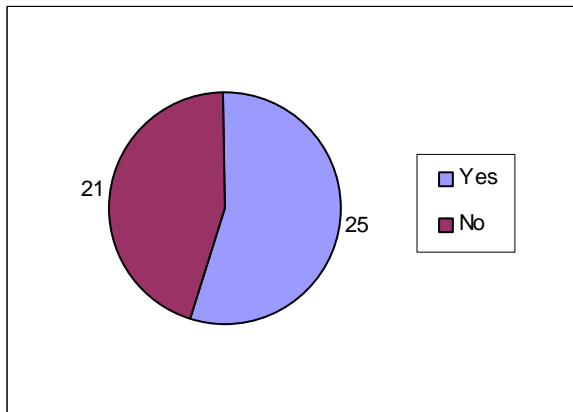

- Good
- Good speakers
- It felt like paid advertising

## Special Lectures

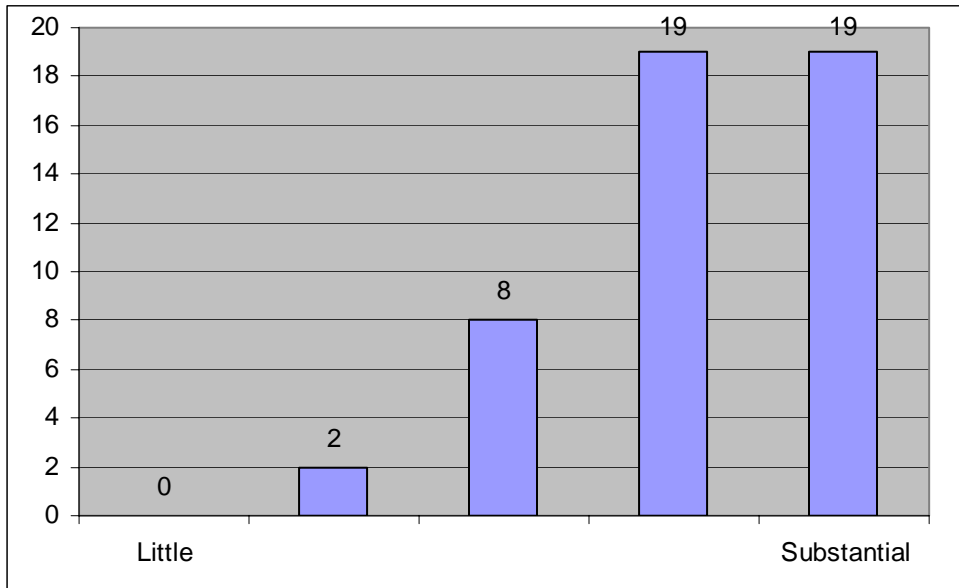

1. How relevant was the address "Pay for Performance: The Next Reimbursement Revolution"

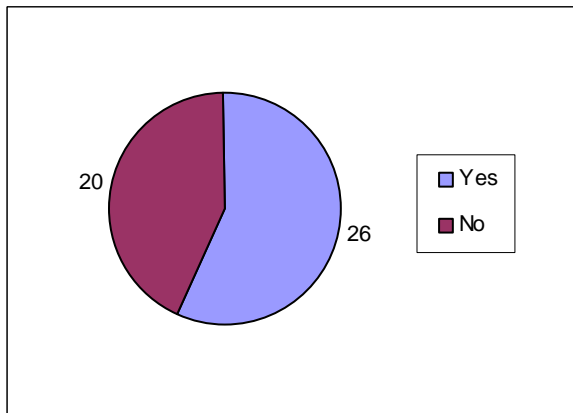

2. Will you be making changes in your technique/procedure or strategies based on knowledge gained in this address?

3. How relevant was the address "Vascular Surgery Training: An International Revolution"?

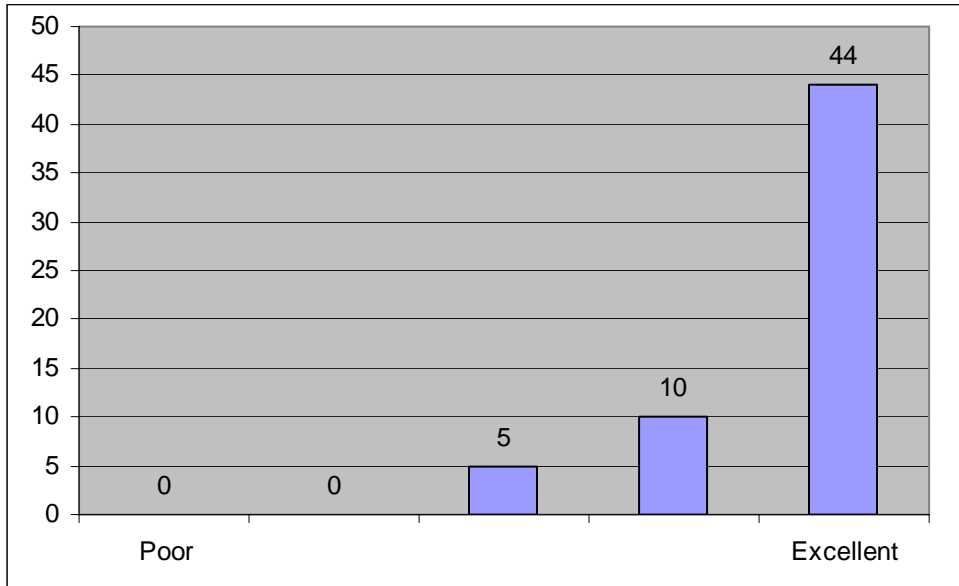

4. Will you be making changes in your technique/procedure or strategies based on knowledge gained in this address?

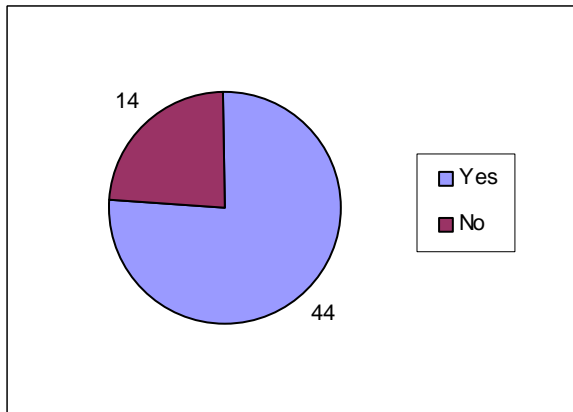

## OTHER FACTORS

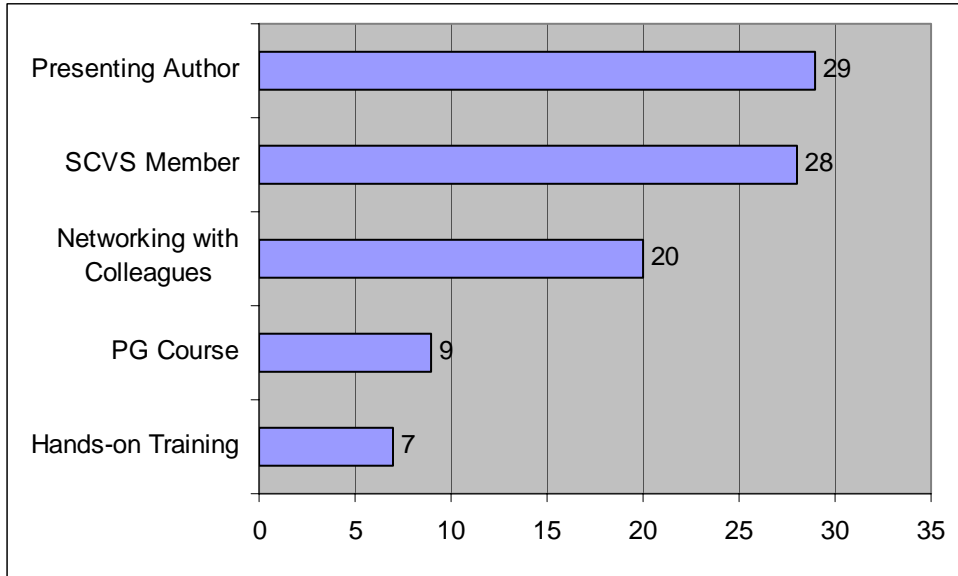

1. Please rate the quality and comfort of the meeting space used at the Four Seasons:

2. Did you use the online registration process to sign-up for this meeting?

3. What was the key factor in your decision to attend the meeting? (check all that apply)

Other responses:

- CME
- Had two posters
- Hotel too expensive. I stayed at Luxor
- Las Vegas and quality of the hotel
- Location
- Meeting site
- Vascular fellow invitation
- Venue

4. What topics/content would you like to see on the 2007 program?

- Advances in Vascular Medicine
- Available Internet access, fellows need more direc
- Billing info for endovascular procedures
- Clinical research topics that are practical
- Computer simulation of endovascular techniques.
- Endovascular procedures for infrainguinal disease
- Endovascular surgery
- Imaging
- More Clinical Endo techniques
- More dialysis access
- More didactic venous research
- More endovascular, lytic therapy
- More peripheral
- More reimbursement issues/solutions
- Thoracic aortic endovascular surgery,
- Up to date topics carotid stenting, aneurysms
- Video assisted and laparoscopic vascular surgery
